Segregated Fund Investment Objective

The objective of this segregated fund is to invest all of its assets in the Emerald[™] Balanced Fund, a pooled fund managed by TD Asset Management, or another substantially similar underlying fund.

Investor Profile (of underlying fund)

Suited to the investor with medium to long-term investment goals, who also is concerned about preservation of capital.

Investment Objective (of underlying fund)

The objective is to closely track the holdings and returns of proportionate weightings of the S&P/TSX Composite Index, the MSCI EAFE Index, the Standard & Poor's 500 Composite Index, the DEX Universe Bond Index and the DEX T-Bill Index.

Investment Strategy (of underlying fund)

- The fund invests mainly in units of other Emerald Index Funds which, in turn, invest in the holdings of the S&P/TSX Composite Total Return Index, the MSCI EAFE Index, the Standard & Poor's 500 Total Return Index, the DEX Universe Bond Index and the DEX Treasury Bill Index.
- The money market portion of the portfolio is the only portion that is actively managed.
- The asset mix of the fund reflects the average asset mix of pooled balanced funds in Canada. The Fund is rebalanced quarterly to bring the asset mix in line with the pension industry's average mix.

The performance data shown reflects changes in unit values and assumes that all income/realized net gains are retained by the Fund in the periods shown and are reflected in higher unit values of the Fund. It does not take into account sales, redemption, distribution or other optional charges or income taxes payable that would have reduced returns.

Past results are not indicative of future performance of the Fund.

Year-by-Year Returns as of September 30, 2010

The Year-by-Year Returns chart shows the annual performance of the Fund, compared to the performance of the Benchmark. It illustrates how the Fund's performance has changed from year to year. For years prior to the Fund's inception date, performance is shown for the Index alone.

Ratios and Supplemental Data

	2005	2006	2007	2008	2009
Net assets (000's) ⁽¹⁾	\$217	\$259	\$383	\$422	\$452
Number of units outstanding ⁽¹⁾	14,141	15,308	22,419	29,908	28,290
Management expense ratio ⁽²⁾	2.28%	2.28%	2.27%	2.25%	2.24%
Portfolio turnover rate ⁽³⁾	21.82%	25.90%	12.08%	25.35%	12.21%

⁽¹⁾ As at December 31st of the year shown.

⁽²⁾ The Management expense ratio is based on total expenses for the year shown, including the expenses of the underlying fund, expressed as an annualized percent of daily average net assets during the year, and includes GST.

⁽³⁾ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
